

PET PARENT'S PLEDGE

Sunny-dog Ink
PET FIRST-AID KITS & CLASSES

**In 2023, I promise to help
my best friend,**

live a longer, happier, healthier life by my side by...

- ✓ Performing a weekly head-to-tail check-up of my dog or cat and really getting acquainted with his habits so that I may discover illness and injury at onset.
- ✓ Scheduling a check-up with our veterinarian to discuss any findings and have our vet do his or her own exam, run tests and provide necessary vaccinations or titers. I will advocate for my pet by asking our vet how I may better help my pet thrive.
- ✓ Checking into veterinary Insurance or having a "Plan B" (credit card or separate bank account) so that if my dog or cat needs medical care, I will be able to provide it.
- ✓ Signing-up for a **PET FIRST-AID & CPR Class** and having an up-to-date **PET FIRST-AID KIT** available, so that I can help my best friend **BEFORE** veterinary care is available.
- ✓ Reading my pet's food label to ensure I am feeding the best my budget will allow, cutting out table scraps and exercising along with my pet.
- ✓ Brushing my pet's teeth daily to prevent bacteria from invading the rest of his body.
- ✓ Confirming my pet's microchip is registered with our most current contact information and supervising my pet a securely fenced yard and/or always walking him on leash when he is not in the house by my side.
- ✓ Enrolling my dog in an obedience class (or giving him a refresher on my own) so that he will be a welcomed friend wherever we go together. I will also teach my cat to "stay" and "leave it" to keep her safe.
- ✓ Providing my dog or cat with a comfortable place to sleep indoors in a warm and draft-free area.
- ✓ Giving my pet at least as much unconditional love as he gives me and spend quality time with him daily as that is the greatest joy of being a Pet Parent!
